Help us to keep our eyes up so that we are aware of the harvest in front of us. We rejoice that we get to reap that for which we did not labor. Let your name be glorified as we enter into others' labor! |                                                             |

Because of You, it will not diminish but will remain and even increase. God, show us what it looks like to plant and multiply the harvest that You have given us!                                                                        |                                                             |
