

Chenoua in Algeria

What would you teach your children to speak if your own people group was small, and there were three other small languages in the local vicinity? You would use the trade language, right? This is what most Chenoua speaking parents do. They live in rural parts of Algeria, and they believe the Algerian government does not help them enough with their infrastructure needs.

Ministry Obstacles

Their desert home makes access difficult. Muslim extremism and terrorist groups are present in some areas. Foreigners often experience difficulty obtaining visas since the government wants to restrict outside influences.

Outreach Ideas

There is a radio outreach in their language and a small number of believers who can reach the Muslim majority. Women with the right skills can reach Chenoua women and help them with their medical and educational needs. Currently there is a Berber rug decor trend. Disciple makers could connect with local rug producers and purchase their goods for the world market.

SCRIPTURE Whenever the living beings give glory and honor and thanks to the one sitting on the throne (the one who lives forever and ever), the twenty-four elders fall down and worship the one sitting on the throne (the one who lives forever and ever). Rev 4:9-10

PRAY for members in this people group to give glory, honor and thanks to the God who sits on the throne.
