

Borgu Fulfulde in Canada

Fulani people who move to Canada face the challenge of a new language, the absence of a spouse (who has remained in Africa), and a different set of social expectations. Fulanis are among the largest people group in West Africa, but in Canada, they are small in number. They no longer have the dominant cultural position they enjoyed.

Ministry Obstacles

As folk Muslims, Fulani have a pragmatic view of the spirit world; you perform rites in order to receive what you need. They struggle to understand that they must be completely loyal to Jesus Christ, the lover of their souls.

Outreach Ideas

There are some Fulani people who follow Christ in Canada and can shine his light to other West Africans.

Prayer Focus

Pray for the few Christ followers among the Borgu Fulani in Canada to lovingly take Christ to African Muslims. Pray for Canadian believers to take steps to minister to the Fulani in their country. Pray for a disciple
