

Arab, Palestinian / Israeli

The lifestyle of Palestinian Arabs varies greatly. Some are fully integrated into Israel's modern industrial economy while others live as Bedouins and farmers. Educated Palestinians who become citizens hold prestigious jobs. The less educated Palestinians live in villages, farm the land, and take care of goats and sheep. Some Arab villages are without electricity and access to clean water and indoor plumbing.

Outreach Ideas

Christian believers can build bridges of trust by helping Palestinian villages to get the clean water and electricity they need.

Prayer Focus
