

Deaf in Morocco

We often talk about people groups who haven't had the opportunity to hear the gospel. In this case, it is the literal truth. The Deaf living in Morocco find themselves without many opportunities, spiritual or otherwise. Morocco doesn't have many resources for this community. As a result, the vast majority of Deaf children (about 85 percent) don't attend school. The school system can't provide the materials or the staff to help Deaf people learn. Therefore, Deaf people throughout Morocco—no matter their age—face similar challenges. While there is a Moroccan sign language, they are forced to teach themselves this language via videos and internet sites.

Ministry Obstacles

Like the rest of the population in Morocco, the majority of the Deaf follow Islam. With no Scriptures available in Moroccan Sign Language, they have few opportunities to find out about the Savior.

Outreach Ideas

There is a need for special schools for the Deaf in Morocco. Compassionate believers can fill this void.

SCRIPTURE After this I saw a vast crowd, too great to count, from every nation and tribe and people and language, standing in front of the throne and before the Lamb. They were clothed in white robes and held palm branches in their hands. And they were shouting with a great roar, "Salvation comes from our God who sits on the throne and from the Lamb!" Rev 7:9-10

PRAY that many members of this people group will be part of the vast crowd praising God in heaven.
